Fadly Fais Fajarruddin

Undergraduate Informatics Students at State University of Surabaya
| UI/UX Enthusiasts | Lead UI/UX at Diginesa
Surakarta, Jawa Tengah, Indonesia

Ringkasan

Hi, I'm Fadly Fais Fajarruddin

Currently studying Informatics Engineering at Surabaya State University, with a strong interest in UI/UX design, web development, and creative digital projects.

I love exploring how design and technology can work together to create engaging, functional, and meaningful digital experiences. From designing user interfaces with bold and modern styles to experimenting with interactive elements, I enjoy turning ideas into something people can truly experience.

Beyond academics, I've worked on various projects ranging from web-based applications, interactive websites, to creative UI experiments. My design approach often combines playfulness, usability, and strong visual identity, inspired by trends like neo-brutalism and clean minimalism.

I'm continuously learning, improving, and open to new opportunities where I can collaborate, grow, and contribute in the fields of design and technology.

Always open to connect and share ideas about design, tech, and everything in between.

Pengalaman
